SUMMARY

Junior developer using my solution-oriented and creative nature to focus on solving problems and learning everything I can in the process. Beginning with limited Java education, I joined the UNC Charlotte Coding Bootcamp in May 2022 and have been developing my tech experience and knowledge ever since.

EXPERIENCE

Laser Machine Operator

Kewaunee Scientific

📅 10/2021 - 05/2022   📍 Statesville, North Carolina

- Read blueprints carefully in order to load the correct material while using metal gauges and digital calipers for quality checks
- Programmed each blueprint and input the information into our data system, making changes where necessary
- Kept equipment clean and repaired while reporting any issues
- Removed processed metal from the machine and sorted pieces onto pallets where they were taken via forklift
- Scrapped flawed pieces and documenting each occurrence

Automotive Technician

Firestone Complete Auto Care

📅 03/2021 - 10/2021   📍 Lenoir, North Carolina

- Completed regular maintenance on all types of vehicles and their parts such as engine tune-ups, oil changes, tire rotations, wheel balancing and filter replacements.
- Troubleshot and diagnosed faults with vehicle systems and components using OEM-specific code readers, diagnostic trees and online knowledge bases.
- Maintained accurate records of time and materials required to perform repairs and services.
- Regularly tasked with finding the issue in a customer's vehicle given limited information
